ROBYN DESIREE D. GONZALES

Front-end Web Developer

An aspiring front-end web developer, who gives priority to the creation of responsive and easy-to-use web interfaces. My goal is to use my HTML, CSS, and JavaScript expertise, and at the same time developing and learning in a professional setting.

Projects

SEO and Website Optimization, Group Project

- Conducted on-page SEO audits using tools like Google Search Console and Google Analytics
- Optimized meta tags, headings, and image alt attributes
- Monitored indexed pages, keyword rankings, and site health metrics
- Implemented performance improvements to enhance page speed

Personal Portfolio Website, Self-Directed Project

- Designed and developed a multi-page portfolio using HTML, CSS, and vanilla JavaScript.
- Applied responsive design principles to ensure cross-device compatibility.
- Implemented UI/UX best practices including micro-interactions and accessibility patterns.

UI/UX Design Activities, Student Designer

- Created wireframes and mockups for web projects using Figma and Canva.
- Applied user-centered design principles to improve navigation flow.
- Ensured consistent typography, spacing, and color usage across pages.
- Gathered peer feedback and iterated designs.
